Welcome Note

Letter from the President

CMG STRATEGY CONSULTING

Dear Prospective Client,

Thank you for your interest in partnering with CMG Strategy Consulting. We dedicate ourselves to developing our members for career success and strive to connect our corporate partners to the right talent in the UC Berkeley community.

In the past, we have had the honor of working with prestigious and high growth companies including Meta, United Airlines, Google, 2K, Lucid Motors, and Spotify. We pride ourselves in providing results that have historically exceeded our project clients' expectations, and we intend to deliver the same to you.

Enclosed are more details about our organization and past projects, as well as client testimonials. We are thrilled to have this opportunity with you. If you have any questions or concerns at all, please do not hesitate to contact us.

Warm regards,
Ayush Hindocha
President

Our Organization

About CMG Strategy Consulting

CMG STRATEGY CONSULTING

Overview

CMG Strategy Consulting is a student-run, strategy consulting organization. Our members are diverse in their backgrounds and are a part of the nationally recognized Berkeley College of Engineering (#3 ranked), Berkeley College of Computing Data Science and Society (#1 ranked), and the Haas School of Business (#3 ranked)

Testimonials

Google

"It's been very refreshing to have CMG come in. They're very enthusiastic and come in with a fresh perspective. I enjoyed the first-term delivery; it came in with a lot of insights and sparked a lot of conversation internally… I'm impressed!"

Mercedes-Benz

"CMG demonstrated both technical depth and creativity alongside high levels of professionalism. Not only did they provide untapped qualitative insights, but they also developed robust technical tools that will be leveraged by our data teams."

StubHub

"The team was beyond professional and approached this project with the seriousness and rigor of a professional consulting firm. They consistently went above and beyond to deliver recommendations, exceeding our expectations at the mid and final deliverable stages."

Dropbox

"The team was beyond professional in all engagements and delivered a set of outputs I'd expect from a Big Three firm. Channel sales in software is a complex world and their analysts and team leads on-boarded quickly and were adding novel value in weeks. Their fingerprints will be on our soon-to-be-released strategy refresh"

Our Mission

Core Values

CMG STRATEGY CONSULTING

Our organization thrives off these four core values:

Commitment to Excellence	Professional Development	Unconditional Support	Long-Term Investment
CMG focuses on a research-heavy, data-driven approach and consistently drives its project managers and analysts to exceed expectations	CMG members consistently go on to work at top-tier firms in technology, consulting, investment banking, corporate strategy and more	Project teams receive top-quality training and support from a tightly-knit community that encourages continuous learning and curiosity	CMG seeks to create a community that extends beyond a member's college experience, resulting in a continued mentorship from graduates

Our Past Clients

CMG STRATEGY CONSULTING

CMG works with diverse clients across many industries

Case Studies

Case Study 1: Technical Modeling & Engineering

Built analytics platform with machine learning processing large datasets. Developed data pipelines, predictive models, and dashboards enabling data-driven decisions

Case Study 2: Product Recommendations

Worked to improve functionality and consumer experience of major platforms and products through in-depth product research and problem-driven user interviews

Case Study 3: Branding Strategy & Market Entry

Created end-to-end event branding strategy, identifying the client's optimal entry point and implementation plan through competitive landscaping and mass surveying

Past *Technical* Impact

Examples of CMG's impact on past projects

CMG STRATEGY CONSULTING

Client	Challenge	Our Process	The Recommendation
Mercedes-Benz	Develop predictive model to forecast regional EV sales and optimize vehicle distribution, addressing inventory imbalances across dealership networks	Built LSTM neural network analyzing historical sales data across California and Arizona. Implemented automated pipeline for real-time model updates	Time-series forecasting system delivering improved prediction accuracy, enabling data-driven inventory allocation and reducing distribution inefficiencies
DELTA	Consolidate Service Bulletin data for CFM56 engines into structured database to streamline maintenance cost evaluation and enhance financial forecasting for TechOps	Analyzed and cross-referenced service bulletin datasets for completeness. Structured Excel database integrating issue dates, labor hours, and material costs	Comprehensive database with standardized fields enabling cost analysis, historical trend identification, and improved budget forecasting for engine maintenance
	Quantify price-demand sensitivity across Audi's U.S. vehicle portfolio to understand how pricing changes impact sales volume, model mix, and revenue across segments	Built multi-variable pricing sensitivity model with Excel and Power BI using historical sales, pricing, and incentive data. Analyzed elasticity enabling scenario analysis.	Actionable pricing and elasticity insights identifying high-leverage models and segments, enabling data-driven pricing decisions to optimize revenue inform strategy

Past *Product* Impact

Examples of CMG's impact on past projects

CMG STRATEGY CONSULTING

Client	Challenge	Our Process	The Recommendation
Google	Increase millennial user engagement and feature adoption across Google Photos, Maps, and Search through data-driven product improvements and marketing strategies	Conducted 903-response millennial survey, segmented users into behavioral cohorts, and analyzed engagement patterns across Google Photos, Maps, and Search	Product enhancement strategy with in-app UX improvements, onboarding optimization, feature discovery flows, and targeted campaigns to increase adoption
Expedia	Develop AI implementation strategy to enhance Expedia's value proposition across traveler segments and improve upper-funnel marketing to reach users earlier in trip planning	Surveyed 400+ travelers and conducted 36 insight interviews to identify traveler personas and pain points. Analyzed competitor AI strategies across booking journey	AI implementation strategy with SEO optimization for discovery, social-to-booking tools, and human-centered planning features balancing automation with control
Uber	Increase Blue Verification Check conversion through quantitative analysis of user behavior patterns and systematic identification of drop-off points in verification funnel	Performed SQL-based cohort analysis identifying friction points and conducted competitive benchmarking extracting optimization strategies from industry workflows	Predictive conversion model with A/B testing framework and propensity scoring system optimizing targeted interventions to maximize verification adoption rates.

Past *Strategy* Impact

Examples of CMG's impact on past projects

CMG STRATEGY CONSULTING

Client	Challenge	Our Process	The Recommendation
L'ORÉAL	Develop retail strategy recommendations to enhance Kiehl's brand positioning, in-store experience, and customer engagement across retail locations	Conducted consumer surveys and insight interviews. Performed fieldwork at Kiehl's stores, Sephora, and competitor locations identifying opportunities	Strategic retail framework with science-backed brand positioning, NYC apothecary-inspired store design, and personalized customer engagement features
peacock	Develop business case for integrating AI and innovative technologies into Peacock's marketing strategy to increase acquisition, efficiency, and subscriber engagement	Evaluated Comcast's Lift Labs companies through synergy analysis identifying high-impact AI applications and successful marketing implementations	Implementation roadmap prioritizing personalization engines and campaign optimization with phased rollout, cost-benefit analysis, and risk mitigation strategies
Dropbox	Redesign channel partner strategy to optimize third-party reseller program structure, benefits, and partner engagement for global implementation	Conducted partner interviews with account managers and resellers identifying pain points in tier movement and communication, then analyzed channel programs	Restructured partner tier system with clear advancement criteria, enhanced communication protocols between teams, and localized support for international scalability

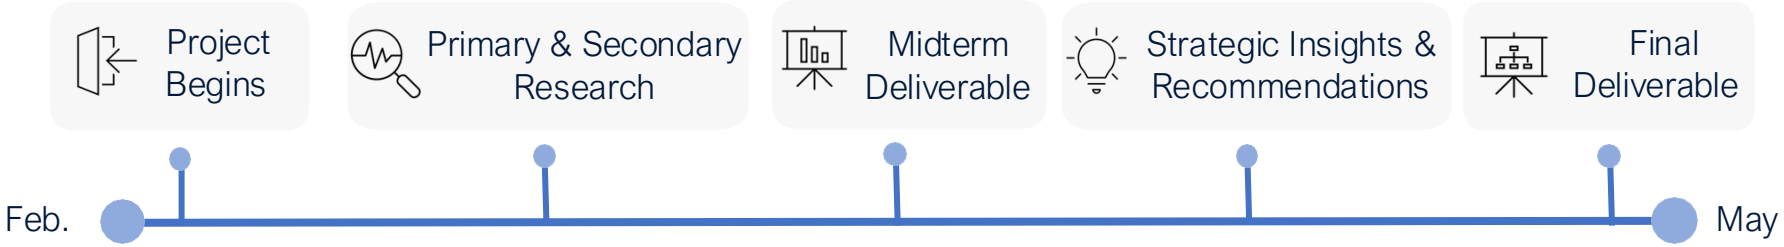
Services & Offering

What partnering with CMG entails

CMG STRATEGY CONSULTING

Flexible Project Timeline

Projects last 10-12 weeks and are staffed with two project managers, six business analysts, and two MBA advisors.



Logistics

POC Calls

- Weekly or Bi-weekly check in calls with PMs to give updates on project
- 30-60 minutes to review weekly assignments and continually adapt scope

Deliverables

- Project team will travel to client headquarters to deliver either deliverable
- 2 Deliverables that will be presented to relevant company stakeholders

Payment Structure

- Flexible payment structure throughout lifespan of project
- Method of completion also set to the discretion of the client

Sponsorships

- Build partnerships with CMG through sponsorship packages
- Set up Berkeley-wide recruiting / talent events utilizing CMG's network

Donation Structure

An overview of how we use client fees within our organization

CMG STRATEGY CONSULTING

We are seeking a flexible donation of $10,000 - $25,000 for our services*

CMG is a 501(c)(3) non-profit sponsored by the Associated Students of the University of California
Meaning all contributions are 100% tax deductible.

Deliverables

- Per Diem Expenses
- Flight Costs
- Hotel Bookings
- Local Transportation
- Presentation Materials

Project Materials

- Database Resources
- Consumer Surveys
- Focus Groups
- Insight Interviews
- Meeting Venues

Recruitment

- Marketing Materials
- Info Session Venues
- Client Sourcing
- Candidates Retreat
- Networking Events

General Expenses

- Events & Workshops
- Campus Registration
- Professional Dev.
- Club Resources
- Office Supplies

All funds are overseen by by the ASUC Student Governing Body and are entirely reinvested into the afore-mentioned functions for the organization!

Final Presentation

December 9, 2024

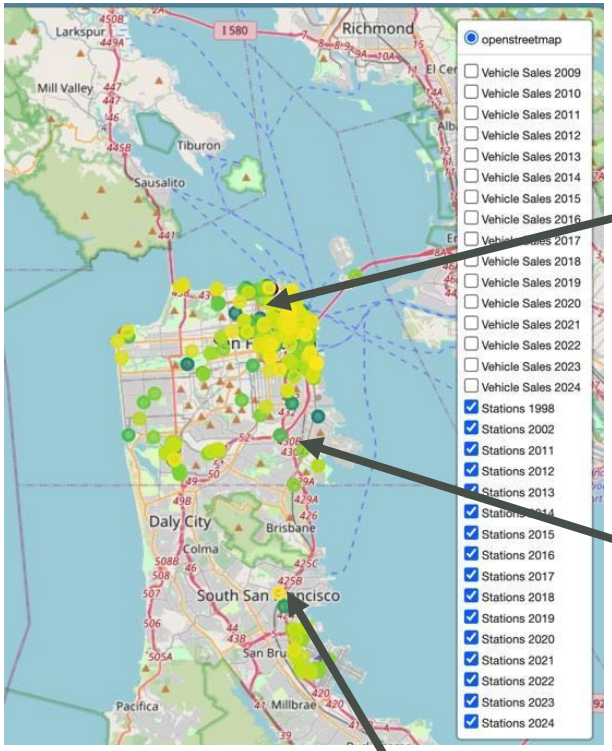
CMG
STRATEGY CONSULTING

[Client] Data Analytics Tool

Demonstration of how we actualized data from the NREL database into a tool

[redacted]

Holistic Tool Overview

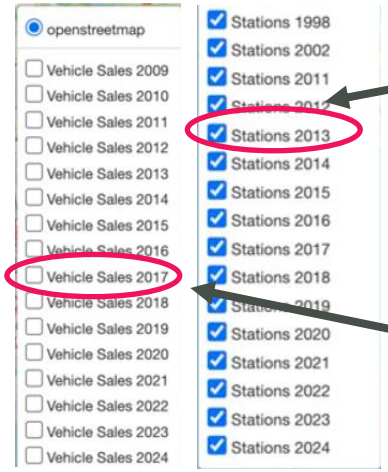


The color of the smaller circles, as well as the heat maps, indicates density of chargers or EV sales in a specific location

The smaller dots show the location of specific EV charging stations

EV sales display heat map of number of EV sales in specific zip-codes

Side Bar Toggle Feature



Allows Users to select specific years to views, and gives them the freedom to view trends over the timeline of their choice

The sidebar is broken up into two components: Vehicle sales (indicates the number of EV sales in a specific zip code) and Stations(indicates the number of stations and their exact location),

Takeaways

Can be used to inform users about the areas where the most EVs are being purchased and the largest potential market size

Current locations of charging stations can show areas with high infrastructure versus those that are in larger need

By utilizing this tool [**Client**] can gain meaningful insights on charging infrastructure density and areas with buyer potential

CMG STRATEGY CONSULTING

EV Registrations in San Francisco

Areas in SF that have witnessed EV registration growth and correlating trends according to our tool

[redacted]

Top Three Growth Areas

1
ZIP 94107
Potrero Hill, Dogpatch, and Mission Bay
76% of residents are college graduates
1119 new EV registrations in 2023

2
ZIP 94112
Mission Bay, Excelsior, and Ingleside
49% Asian, 24,501 people/square mile
61% registration growth from 2022-23

3
ZIP 94015
Daly City, South SF, Broadmoor
49% Asian population
52% registration growth from 2022-23

Source: ZIP Data Maps

EV Registration Growth Trends

Asian Inclination Towards EVs

Asians Americans are migrating to specific neighborhoods in SF

- 40.3% ownership rate amongst SF Asian population, leading EV volume
- 52% have considered purchasing EVs, 9% more than the next greatest group

Areas like SoMa, Bayview-Hunters Point, and Richmond-Sunset with growing Asian populations

Source: Consumer Reports, SF Chronicle

Higher Education Conversion

Education level plays a major role in vehicle preference

- 46.6% of new vehicle buyers in the SF area are high income with education
- College grads are 47% more likely to buy EVs than those with less education

Areas like the Marina district, Presidio, Seacliff, and Pacific Heights, where over **80%** of residents are college grads

Source: Ipsos, SF Standard

Curbside Charging Infrastructure

SF is prioritizing building charging stations in dense urban areas

- Chargers will grow from approximately 800 in 2019 to over 5,000 by 2030
- Availability of public charging stations is a key factor in the transition to EVs

Areas like Chinatown, downtown SF, and Mission district with high-density populations and multi-unit housing

Source: The ICCT, Electrify News

Asian migration, higher education, and curbside charging trends affect which areas in SF witness EV registration growth

CMG
STRATEGY CONSULTING

Overview: [Client] Concierge

Our recommendation for rebuilding trust in AI-powered trip planning

[redacted]

Strategy Overview

Position [**Client**] as a "pre-planner" where AI quickly drafts itineraries for inspiration, structure, and logistics while travelers or human advisors retain full authority over final decisions, protecting comfort, control, and trust while still accelerating discovery

Recommendation Rationale

Trust Fragility

AI errors instantly destroy confidence

▼

Keep AI advisory, not decision-making

Comfort First

Want ease, reliability, and minimal risk

▼

Keep comfort-critical choices human-led

Control Matters

Users reject bundles and generic plans

▼

Offer modular drafts, not fixed packages

Expert Skepticism

Frequent travelers tend to trust AI less

▼

Position AI as just a planning assistant

Case Study: Charles Schwab

In 2015, Schwab launched Intelligent Portfolios, blending AI investing w/ human support through:

- Robo Portfolios
- Low-Cost Access
- Human Advisory

- AI sped up portfolio creation & maintenance
- Humans assist complex/nuanced decisions
- In 2020, total robo accounts grew **18% YoY**

Source: SEO Travel, PR Newswire, Black Platinum Gold, Bankrate, Kitces, Financial Columnist, Schwab

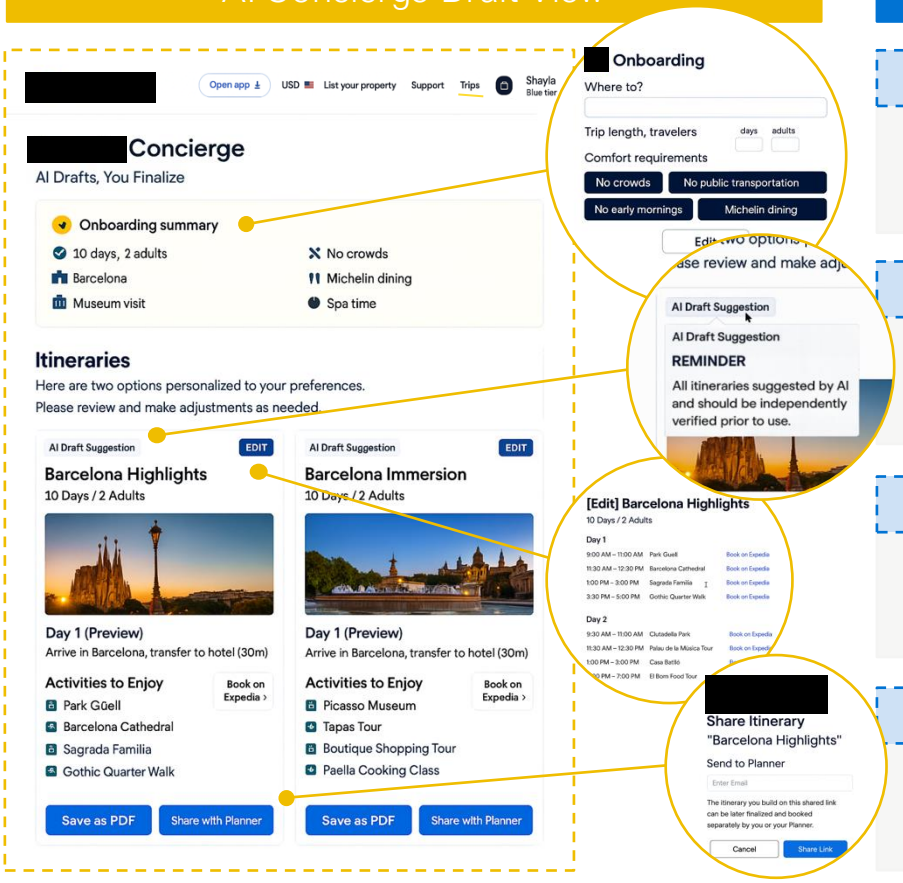
AI can inspire planning, but humans should control decisions to protect trust, comfort, and confidence

Mockup: [Client] Concierge

Our vision of AI as the draft, humans as the authority

[redacted]

AI Concierge Draft View



Description of Features

Onboarding & Preference Architecture

- Structured intake of users' comfort rules and travel constraints
- Preference-driven drafts instead of one-size-fits-all travel flows

AI Draft Governance & Transparency

- Utilizes onboarding inputs for personalized first-draft itineraries
- "Suggestion" label = less decision anxiety, more user authority

Itinerary Editing & Control Workspace

- Planner-grade environment to adjust trip experience/activities
- Human oversight for comfort-critical decisions or refinements

Export-Layer Distribution & Sharing

- Share first or final drafts with planners and travel companions
- Export-first design to keep planning flexible and non-binding

AI accelerates early planning while humans protect comfort, control, and trust through export-first workflows

CMG STRATEGY CONSULTING

Marketing
Deliverable

Overview: Strengthen Brand Imaging

Our recommendation for creating a more cohesive brand theme across [Client]'s retail displays

[redacted]

Strategy Overview

Drawing inspiration from [Client]'s deep-rooted history as an apothecary and its iconic connection to the vibrant NYC urban culture, [Client] can infuse these elements into its storefront by incorporating designs into its retail experience.

Recommendation Rationale

Visual Awareness

Half of respondents did not know [Client]

▼

Increase awareness with bold visuals

Brand Recognition

Interviewees liked iconic packaging

▼

Reinforce brand identity in stores

Cohesive Theme

Retail displays had variety of aesthetics

▼

Consistent design establishes clarity

Pride in Tradition

[Client] prides itself in its history and culture

▼

Foster emotional customer connection

Case Study: Starbucks Reserve

In 2014, Starbucks opened its Seattle Roastery, incorporating artisanal coffeemaking elements:

- Wood finishing
- Historical decor
- Informational plaques

- Storytelling creates emotional engagement
- Immerses customer in nostalgic tradition
- Seattle and Milan stores now tourist spots

Sources: Digiday, Medium,

Creating a more cohesive brand image would reinforce [Client] history and increase customer engagement

Implementation: Strengthen Brand Imaging

Steps to creating a cohesive and recognizable [Client]'s retail identity

[redacted]

Implementation Timeline

1 Visual Branding

Develop apothecary and urban NYC-inspired décor

Establish prototype flagship stores in NYC

- Increase foot traffic in flagship stores
- Relevant social media engagement

2 Create Displays

Roll out effective testers and updated decor

Send out customer feedback forms to refine

- Customer engagement with decor
- Increase [Client] brand recognition

3 Staff Training

Educate staff on [Client] history and traditions

Train staff to guide through interactive features

- Customer understanding of story
- Positive interactions with employees

Implementation Priority

[Client] Retail Stores	Sephora Displays
★★★★★	★★★☆☆

- Greater brand ownership at storefront locations
- Full control over immersive customer experience
- Higher profit margin in stores than in Sephora

Risks & Mitigations

High costs in creating store layouts or displays at Sephora	Begin with prototypes in select locations and adjust budget
Employees hesitant to adapt to new customer engagement	Provide thorough training and incentivize storytelling interactions
Customers may not engage with certain elements of new decor	Conduct A/B testing to identify most effective visual elements

[Client] should gradually implement design changes, consistently relying on prototypes and indicators

Mockup: [Client] Store

Our vision of a [Client] store with elements tied to [Client]'s rich history and connection to NYC

[redacted]

Vintage Apothecary / NYC Visual

Description of Features

Interior Design

- Brick wall creates urban, East Village aesthetic with retro feel
- Subtle graffiti accents evoke individualism, can highlight products
- Warm, welcoming lighting from vintage-style hanging lamps

Store Décor Elements

- Retro-style signpost adds functionality and maintains NYC theme
- Decorative apothecary jars draw attention to ingredient in product
- Wicker baskets align with apothecary shopping experience

Engaging Touchpoints

- Redesign Try It Yourself counter to mimic vintage apothecary lab
- NYC-themed bench seating to create communal atmosphere

Immersing the customer in a vintage NYC apothecary-inspired storefront reinforces brand history and identity
